DAICO INDUSTRIES, INC.

## **RF Test Technician**

We are seeking a RF Test Technician to join our team. You will be responsible for performing tune and test tasks for RF/Microwave products.

### **Duties and Responsibilities include, but are not limited to:**

- Set up test equipment and execute DC and RF tests in various production stages.
- Accomplish tuning/testing to meet requirements.
- Troubleshoot from top assembly to sub-assembly levels.
- Perform final tests per ATP/QTP procedures for specific products.
- Be familiar with RF Control Components and Sub-systems.
- Provide support for Engineering projects.
- Effective communication skills are necessary in order to work effectively with team members.
- Demonstrate career development potential within the Engineering Department.

### **Education, Qualifications & Experience:**

- Minimum AA Degree or equivalent in engineering/science majors.
- Minimum 2 years' experience in RF or related fields preferred.
- Demonstrated knowledge, skills, and abilities necessary to perform required duties.
- Familiar with MIC/Discrete RF Products.
- Familiar with RF test equipment, including Network Analyzer, Signal Generator, Power Meter, Spectrum Analyzer, Oscilloscope, etc.
- Knowledge of LabView or test automation is a Plus.

### **We offer a competitive salary, comprehensive benefits and a 4-day workweek.**

The hourly rate for this role is \$23.00-\$33.00 per hour; however, Daico Industries considers several factors when extending an offer, including but not limited to, the role and associated responsibilities, a candidate's work experience, education/training, and key skills.
